Référence : 13.06.100

Pièce détachée ou accessoire SHINE d’origine. Référence 13.06.100. Compatibilité : SPARX Double. Prix affiché HT.

Pièce détachée SHINE

Accessoire ou pièce de remplacement d’origine SHINE pour l’entretien et la maintenance des équipements de soudage et de protection respiratoire.

The SHINE SparX Double ADF has a revolutionary Bluetooth remote control to control settings in mere seconds during your welding job. In addition, the ADF has the highest optical class of 1/1/1/1 and a shade range between 4 – 5/9 – 9/13 with a fast switching time of only 0.08ms and a delay range of 0.1s – 1s, decreasing waiting times during your welding job. The ADF automatically powers on and off and has a shade value of 4 in the off state. The ADF has a rechargeable ADF battery with an operating time of more than 300 hours while charging takes only 2.5 hours. When the battery runs low there is a low battery indicator that notifies you to charge the ADF. The ADF has a long lifetime expectancy since the battery can be charged more than 500 times. With a minimum of 3 amp TIG current, the ADF suits all your welding needs.

Fiche technique

- Marque : SHINE
- Référence fabricant : 13.06.100
- Compatibilité : SPARX Double
- Conditionnement : Selon conditionnement fabricant
- Prix : 255,00 € HT
